FOR IMMEDIATE RELEASE  
19 February 2008

## **EDWARD J. DONELAN, RCDD, NTS, TLT - ELECTED PRESIDENT OF BICSI**

NEW YORK, NY, 19 FEBRUARY 2008:

Edward J. Donelan, owner of Telecom Infrastructure Corp, an award winning Information Transport Solutions (ITS) corporation, has been elected President of BICSI. Donelan has completed a leadership role as President-Elect for 2 years and was inaugurated at the winter conference in Orlando on January, 16<sup>th</sup>, 2008, for an additional 2-year commitment as President. BICSI, a worldwide organization founded in 1974, boasts over 17,000 members in more than 100 countries. BICSI is a non-profit organization whose mission is to lead the information transport systems industry with excellence in publications, education and knowledge assessment; advance members ability to deliver the highest quality products and services; provide members with opportunities for continual improvement and enhance professional stature. BICSI holds several conferences annually to assure that ITS professionals are versed in the standards, codes and regulations necessary to deliver the highest quality products and services.

Telecom Infrastructure Corp was established in 1985 as a privately held, family run company dedicated to crafting network infrastructures that support the most demanding commercial building information transport solutions. Telecom prides itself on providing superior customer service that exceeds our customers' expectations. From copper to fiber optics to wireless, Telecom Infrastructure Corp provides a full spectrum of information transport systems and services.

Donelan served 2 years as the Treasurer for BICSI, 2 two-year terms as Northeast Regional Director and has taken an active role in helping the organization become what it is today. Donelan was also awarded the prestigious University of South Florida's Harry J. Pfister Award in 2003. This award is presented to a person "who has made an outstanding contribution to the field of telecommunications over a period of time".

When asked about his opportunity and responsibility as President, Donelan said, "I am excited about the opportunity to continue to be an active participant in the growth of BICSI. With the foundation being the 3 to Thrive Plan which includes the Strategic Plan, BICSI NxtGEN Business Plan and Outreach Program, there is much to be energized about. The NxtGEN program will modernize the BICSI credentialing programs and make them more consistent with how professionals are credentialed today."
